

# DELTA REGIONAL CHAPTER AWARDS

## RE:Awards 2011 - Unmasking Great Design

The Recognizing Excellence Awards (Re:Awards) Gala is a celebration and awards ceremony announcing the winners of the individual professional service awards and design competition entries. The purpose of the Individual Awards is to honor and recognize the contributions of individual Delta Regional Chapter IIDA members over the past year. The purpose of the event design competition is to celebrate outstanding examples of designed interior spaces from the Delta Regional Chapter IIDA members by recognizing the work of peers, promoting public awareness of design excellence, and elevating the interior design profession. This year's Re:Awards theme of "Unmasking Great Design" celebrated the Pride of Delta Regional in a New Orleans style masquerade theme. Participants also showed off their creativity and design talent for the mask competition during the event!.
